

LED COB 2W work light, 200lm, 1200mAh, foldable

Marka: **Virone** | Symbol: **WL-12** | Ean: **5908254840784**

ViRONE

PRODUCT DESCRIPTION

The USB-charged rechargeable light is a very practical solution for anyone who needs an extra source of light in various situations - without having to replace and buy batteries. Great for the workshop, home, travelling or camping. The torch is equipped with LED COB technology, so it emits much more light than traditional LEDs while using less energy. It has three operating modes so that its brightness can be adapted to the user's needs. The LED workshop light is a model with a folding head. The torch also features a convenient hole for a pendant and a magnet built into the base, which allows it to be attached to metal surfaces. The impact-

resistant casing ensures safety and comfort of use. The folding torch is powered by a rechargeable battery, allowing it to be used without the need for a mains connection. The movable head can be adjusted by 280°, allowing it to be conveniently adapted to a specific situation. The torch's housing is made of plastic, with special grooves that provide a more secure grip, and a stabilising magnet prevents the torch from tipping over and possibly being damaged. Easy to use, build quality and durability make the LED work light the ideal tool to have on hand in all conditions.

TECHNICAL DATA

General information:

Lamp type:	LED
Power:	2W
Luminous flux:	200lm
Power type:	Akumulator
Battery capacity:	1200 mAh
Battery type:	Akumulator zainstalowany na stałe
Number of light modes:	3
Modes of operation:	COB LED 100%, COB LED 50%; dioda SMD
Rechargeable:	tak
Battery charge indicator:	nie
Light range:	10m
Color temperature:	6500K
Color rendering index Ra/CRI:	80
Lifespan L70/B50:	100000h
Degree of protection (IP):	20
Model:	Robocze-warsztatowe
Material:	Tworzywo sztuczne/aluminium
Colour housing:	Czarny
Length/height:	270
Width:	48
Depth:	35

Weight total:	123
Charging input:	USB-C
Accessories:	kabel ładowania
Additional information:	ruchoma głowica w zakresie 270°, magnetyczna podstawa, otwór na zawieszkę
Rechargeable:	tak
With light source:	tak
