

	REVISED	DR	APP

Network tester with 2 different test modes.

Sweep Mode:

Each data line is checked individually, the master unit sent a signal to the first pin, the LED for pin 1 blinks on master unit and remote unit green, and so on.

Slow Sweep Mode:

This version test with a slower speed then normal sweep mode.

You check the pass-through from cable and plugs and the correct wiring..

The tester check all 8 or 6 data lines plus the ground (gnd).

- Master unit with RJ-11/RJ-12 and RJ-45 jack
- Remote unit with RJ-11/RJ-12 and RJ-45 jack
- 9V block battery not included
- Housing material: plastic
