

LED module McShine

5W, 400 lumen, 230V, 50x23mm, warm white, 3000K, dimmable

TECHNICAL DETAILS: · Luminous flux 400 lumens · Light color warm white · Color temperature 3000 K · Beam angle 120° · Power consumption 5W · Ceramic housing and real glass lens · Voltage 220-240V · Energy efficiency class G · Lifetime 20,000 hours · On/Off 10,000x · Start time <1s = 60% brightness · Color rendering index (CRI) Ra >80 · Temperature range -20 °C to +40 °C · Dimensions: 50x23mm · Dimmable.

SAFETY INSTRUCTIONS: Check the appliance for damage before commissioning. If this is the case, please do not operate the appliance. If you have any questions, defects, mechanical damage or other problems, please contact the dealer or manufacturer. If you have any doubts about the safety of the product or if it is not working properly, have it checked by a qualified electrician and repaired if necessary. Please note that technical modifications to the appliance will immediately invalidate the appliance's licence! Keep the operating instructions for the appliance in a safe place. **Installation, electrical work and repairs may only be carried out by qualified electricians. Risk of electric shock and accident!** When working on 230 V, please ensure strict compliance with the accident prevention regulations. Do not short-circuit the connections and circuits. Do not kink, crush, pinch or otherwise damage the cables. Due to the heat generated by the light, the spotlight must not be covered or touched on the housing during operation. Please do not look directly into the light source to prevent eye injury. Do not drop the appliance. It could be damaged if it hits a hard surface. Avoid installation in locations with large temperature differences. Electrical components must not come into contact with moisture. Only wipe the device with a soft, dry cloth. Never use scouring powder or chemical cleaning agents. Do not leave the packaging material lying around carelessly; plastic film/bags, polystyrene parts, etc., could become dangerous toys for children. The device does not belong in the hands of children, it is not a children's toy! The bulb in this light is not replaceable. As soon as the bulb has reached the end of its service life, the entire light must be replaced.

ASSEMBLY

DISPOSAL INSTRUCTIONS: By separating, recycling and disposing of old appliances in this way, you are making an important contribution to protecting our environment. Packaging can be disposed of free of charge in accordance with local regulations at the appropriate collection centres. According to the European WEEE Directive, electrical and electronic appliances may not be disposed of with household waste. Their components must be recycled or disposed of separately, as toxic and hazardous components can cause lasting damage to health and the environment if disposed of improperly. As a consumer, you are obliged under the German Electrical and Electronic Equipment Act (ElektroG) to return electrical and electronic equipment free of charge at the end of its life to the manufacturer, the point of sale or to public collection centres set up for this purpose. Details are regulated by the respective state law. The wheeled bin symbol on the product, operating instructions and/or packaging indicates these regulations.
