## Instruction manual

# LED garden light McShine „GL-50W“

## 5 W, 500 lm, warmwhite, 1,5 m Cable, earth spike

### ASSEMBLY INSTRUCTIONS

A terminal block should be used to connect the power cable. The terminal block must comply with protection class II:

- The terminal strip has 2-pole or more
- The capacity of the terminal strip is 0.5-1.5 mm<sup>2</sup>
- The rated voltage of the terminal strip must not be less than 250 V

The wire end must be clamped with a crimp terminal to prevent the free wire conductor from coming out.

Please connect the power cord of the products to the power cord by following the rule:

L to L, N to N, green-yellow to green-yellow.

### SAFETY INSTRUCTIONS

- Before commissioning, check the device for damage. If this is the case, please do not put the device into operation.
- Please note: If you make any technical modifications to the device, the guarantee of the device will expire immediately.
- Keep the operating instructions of the device.
- When working with 230 V, strictly adhere to safety regulations.
- Do not short-circuit the connections and circuits.
- The installation must be carried out by qualified personnel only.
- Please do not look directly into the light source in order to avoid injury to the eye.
- Do not drop the device. It could be damaged if it hits a hard surface.
- Avoid installing the unit in places with high temperature differences.
- Do not carelessly leave the packaging material lying around, Plastic foils/ bags, polystyrene parts, etc., could become a dangerous toy for children.
- The device does not belong in children's hands, it is not a child's toy!

### TECHNICAL DETAILS

Operating voltage:	220 – 240 V
Light color:	warmwhite
Color temperature:	3000 K
Absorbed power:	5 W
Lifetime:	20000 h
Illumination technology:	COB LED
Outer diameter:	60 mm
Height:	190 mm
Energy efficiency class:	This product contains a light source of Energy efficiency class E.
Accent lighting:	Yes
Protection class:	IP65
Supply cable:	1.5 m
Housing:	Aluminium

### DISPOSAL INSTRUCTIONS

By separating materials, recycling and disposing of old equipment in this way, you are making an important contribution to protecting our environment. Packaging can be returned to appropriate collection points for free.

#### WEEE disposal note

According to the European WEEE Directive, electrical and electronic WEEE Directive, electrical and electronic equipment must not be disposed of with household waste. Their components must be recycled or disposed of separately, because toxic and hazardous components can cause lasting damage to health and the environment if disposed of improperly.

As a consumer, you are obliged under the Electrical and Electronic Equipment Act (ElektroG) to return electrical and electronic equipment free of charge at the end of its service life to the manufacturer, the point of sale or to public collection points set up for this purpose.

Details are regulated by the respective state law. The symbol of the wheeled garbage can on the product, the operating instructions and/or the packaging refers to these regulations.
