

LED String Lights McShine "Micro"

50 LEDs, warm white, battery-powered

TECHNICAL DETAILS: · Warm white light · Total length: 5.10 m · Power cord: 10 cm · 5 m with 50 LEDs (spaced 10 cm apart) · Powered by 2 CR2032 button cells (not included) · ON/OFF switch · Not suitable for general room lighting

SAFETY INSTRUCTIONS: Keep the operating instructions for the appliance in a safe place. Check the appliance regularly for damage. Do not modify the product or accessories. This LED string light is intended for indoor use only in dry environments, as it complies with protection class IP20 and is not protected against water or moisture. Operate the product only with the specified button cell batteries and do not use any other battery types. Non-rechargeable batteries must not be recharged. Ensure correct polarity when inserting the batteries and remove depleted batteries from the battery compartment immediately. Button cell batteries can be life-threatening if swallowed. Therefore, keep the batteries and the product out of the reach of children and pets. Seek immediate medical attention if a battery is suspected to have been swallowed. Do not use the string light if the cable, battery compartment, or LEDs are damaged. The string light must not be covered or operated while still in its packaging, as this may cause overheating. Keep the product away from open flames, heat sources, and flammable materials. This product is not a toy and should only be used under supervision. Switch off the string light when not in use and remove the batteries if the product will not be used for an extended period. Any modifications or repairs may only be carried out by qualified persons.

Commissioning

1. Open the battery compartment and insert the 2 button-cell batteries (CR 2032), making sure the polarities are correct. 2. Close the compartment and press the switch on the front of the unit.

DISPOSAL INSTRUCTIONS: By separating, recycling and disposing of old appliances in this way, you are making an important contribution to protecting our environment. Packaging can be disposed of free of charge in accordance with local regulations at the appropriate collection centres. According to the European WEEE Directive, electrical and electronic appliances may not be disposed of with household waste. Their components must be recycled or disposed of separately, as toxic and hazardous components can cause lasting damage to health and the environment if disposed of improperly. As a consumer, you are obliged under the German Electrical and Electronic Equipment Act (ElektroG) to return electrical and electronic equipment free of charge at the end of its life to the manufacturer, the point of sale or to public collection centres set up for this purpose. Details are regulated by the respective state law. The wheeled bin symbol on the product, operating instructions and/or packaging indicates these regulations.
