Socket outlet with protective contact McPower „FLAIR"

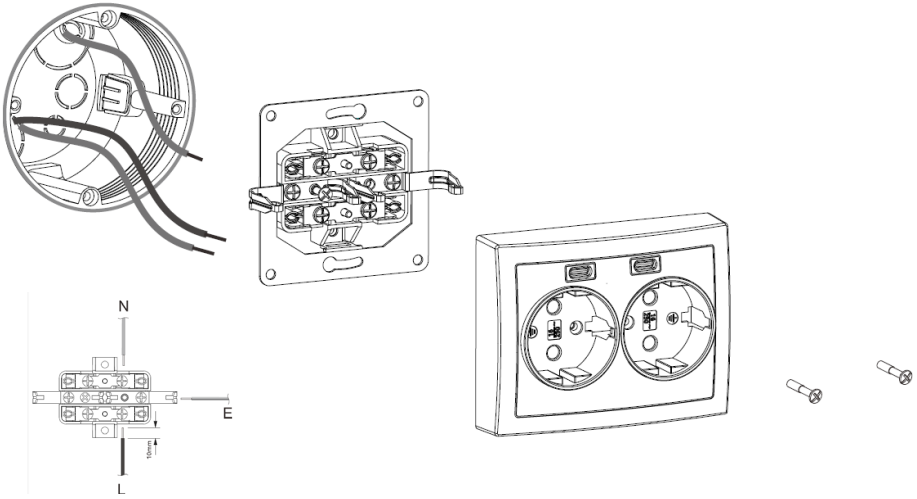

double, 250V~/16A, Plug-in protection, 2x USB-C, PD30W

TECHNICAL DETAILS: ·· 2-outlet grounded power outlet · 2x USB-C 30W Power Delivery · USB-C: 5V/3A – 15W, 9V/3.0A – 27W, 12V/2.5A – 30W, 15V/2A – 30W · 20V/1.5A – 30W · Both USB ports simultaneously at 5V/3A each – max. 15W · Total 250V~/16A · With overload protection · With short-circuit protection · With insertion protection / shutter · WxHxD: 105x80x25mm · Fits 68mm-Ø cavity wall boxes · Installation depth 23mm · IP20 - for dry indoor environments · Suitable for vertical and horizontal mounting

SAFETY INSTRUCTIONS: Keep the operating instructions for the appliance in a safe place. Check the appliance regularly for damage. Do not modify the product or accessories. Do not insert any objects into connection sockets. The product is not suitable for outdoor use. Do not short-circuit the connections. Only use the product if it is in perfect condition. Never operate a defective device! The appliance must not be modified in any way. Risk of electric shock and accident! Keep the appliance away from moisture and humidity. Avoid extreme loads such as extreme heat or cold, moisture, microwaves, mechanical pressure and vibrations. Avoid overloading the socket: Do not connect several high-current devices at the same time. Overloaded sockets can lead to overheating and a fire hazard. **Disconnect the mains power supply before connecting. Electrical work, installation and repairs may only be carried out by qualified electricians. Avoid inserting metal objects or fingers into the socket to prevent a short circuit or electric shock - DANGER TO LIFE!** Only wipe the appliance with a soft, dry cloth. Never use scouring powder or chemical cleaning agents. Electrical components must not come into contact with moisture. Do not kink, crush, pinch or otherwise damage the cables. If you have any questions, defects, mechanical damage or other problems, please contact the dealer or manufacturer. If you have any doubts about the safety of the socket or if it is not working properly, have it checked by a qualified electrician and repaired if necessary. The product is not a toy and does not belong in the hands of children! Please note that the product, packaging, plastic film / bags, polystyrene parts, etc. are not suitable for children. Small parts and insulating material can become a dangerous toy for children and pose a hazard.

ASSEMBLY

1. Switch off the fuse and check that there is no voltage. **2.** Strip approx. 10 mm of insulation from the wire ends. **3.** Remove the cover. **4.** the connections are labelled „L", „N" and „⏚". **5.** Screw the wires into the screw connections as follows: brown/black wire in „L"; blue wire in „N"; green/yellow wire in „⏚". Make sure that no wires are pinched incorrectly and that no strands protrude or stick out. **6.**Insert the socket outlet into the flush-mounted box and screw the fixing claws tight. **7.** Insert the socket cover into the frame and screw the socket cover hand-tight into the flush-mounted box using the screw in the centre.
WARNING – Installation: During installation, please ensure the correct positioning of the plastic guide and the proper alignment of the power supply pins for the USB ports. If the housing is installed rotated by 180°, the USB ports will not function. The spring-loaded contact pins must be precisely aligned with the corresponding contact points on the circuit board.

DISPOSAL INSTRUCTIONS: By separating, recycling and disposing of old appliances in this way, you are making an important contribution to protecting our environment. Packaging can be disposed of free of charge in accordance with local regulations at the appropriate collection centres. According to the European WEEE Directive, electrical and electronic appliances may not be disposed of with household waste. Their components must be recycled or disposed of separately, as toxic and hazardous components can cause lasting damage to health and the environment if disposed of improperly. As a consumer, you are obliged under the German Electrical and Electronic Equipment Act (ElektroG) to return electrical and electronic equipment free of charge at the end of its life to the manufacturer, the point of sale or to public collection centres set up for this purpose. Details are regulated by the respective state law. The wheeled bin symbol on the product, operating instructions and/or packaging indicates these regulations.
